

CENTER CONSOLE BOAT SET-UP

Center console boats are known for their versatility and make an ideal choice when fishing in offshore waters where sea conditions and changing weather demands a seaworthy craft. These boats have space for one or more Humminbird fish finders mounted in-dash, or on a gimbal mount. In addition, networking a Humminbird with a Minn Kota trolling motor equipped with i-Pilot Link ensures total boat control. For days when fishing on the flats, a Talon shallow water anchor will keep you in place.

Recommended Humminbird Units:

SOLIX 15, 12, 10

HELIX 12, 10, 9
